Review quote Combines hard science fiction with mystery and adventure in a wild tour of the distant future. Also, a side rant: I have a certain skepticism about any story that relies on some scientific discovery years and years ago that somehow got irretrievably lost, because at least the way we do science now that's not going to happen. Original Title.

ThiswasmyfirstandprobablylastMcDevittnovel.USD8. Before leaving the area, the starship launches a series of satellites to find the signal—and perhaps discover its origins. Naturally, those artifacts will become important as the mystery unfolds.
